SERVICES & PRICE GUIDE

HELLO FRIEND

We're Gerson + Kelly, a husband-and-wife duo with with a heart for storytelling. Rêve Content Co was born not only from our passion for capturing content, but from our genuine love for people and preserving their most meaningful moments in a beautiful, intentional way. Our heart is to serve you by documenting both the big highlights and the quiet, in-between moments that make your day truly unforgettable.

Rêve Content Co is the sister brand of Repreza Films—where our journey in the wedding industry began. With 9+ years of experience as professional wedding videographers, we bring a trained eye, refined storytelling, and an in-depth understanding of how to capture the essence of every moment. When you hire us as your content creators, you're not simply getting someone to film on a phone — you're gaining the expertise, precision, and artistry of seasoned professionals. We approach content creation with the same level of care and intention as wedding filmmakers, ensuring your content feels elevated, elegant, and uniquely tailored to you.

THE EXPERIENCE

ONE

SECURE YOUR DATE

We'll schedule an inquiry call to discuss your vision, needs, and our packages. Once you're ready to move forward, simply sign the contract and pay the retainer to officially secure your wedding date.

TWO

CONTENT PLANNING

1 month before your wedding date we will get on a call to talk over all of the content you are wanting captured. We will go over details and answer any final questions you might have.

THREE

THE BIG DAY

Sit back, relax, and live in the moment! We will be there capturing every beautiful moment. 24 hours after your celebration, you will receive a link with all of your raw content. Your edited content will be delivered within 72 hours.

FAQ

How are you different from a photographer or videographer?

We all fill different roles during your event. If you hire a photographer and/or videographer, together we form the media team. We all collaborate to capture the memories you'll cherish for a lifetime.

While we create you content you can cherish the next morning and post right away on your socials, your photographer snaps the photo that you put on your mantle, and your videographer makes the cinematic masterpiece that you play on your anniversary. We all work seamlessly together!

When and how will I receive my content?

We will deliver your raw, unedited content to you within 24 hours of the conclusion of your wedding day. You'll receive a Dropbox link containing all of your wedding day memories, thoughtfully organized into folders for easy access. Edited content will be delivered within 72 hours.

How do you shoot my content?

We shoot all content on an iPhone 15 Pro Max along with a gimbal for the iPhone to ensure your content is smooth and stable. We come prepared for anything, including multiple portable phone chargers and a Ring light for those night shots.

READY TO BOOK?

GLAD YOU ASKED

We're so excited to be part of your special day! Once you've had a chance to look over our pricing guide, the next step is to schedule a call with us. This allows us to understand exactly what you're looking for in terms of coverage and content, so we can tailor everything to your unique vision.

After you've chosen the perfect package, we'll send over a contract and a 50% retainer will be due to secure your date. And just like that, your booking is complete! We'll take it from there, ensuring your big day is captured beautifully.

THANK YOU
